President's Report

G'Day All,

Christmas in July was held on Sunday 28th and it was our first official function in the new clubrooms. Over 50 members and their cars were present and with lucky door, lucky seats and raffles. A great day was enjoyed by all. Murry showed great photos of his push bike ride around France. Many thanks to all that helped set up, also thanks to the catering team.

Well done all.

As soon as the weather fines up, some working bees will be held to spruce the clubrooms and car park area up for the grand opening which will be held on Sunday the 27th of October at 2:00pm. More on this at the general meeting.

Don't forget the A.G.M. next month, nomination forms will be in this and next month's newsletter.

Membership is now well OVERDUE. For those on the CPS, contact membership officer John Welch ASAP to avoid cancellation of your Permit. This is a VicRoads Policy.

On October the 19th at 2:30pm, Cheese World will be hosting a visit by the Victorian Corvette Club. Members with Corvettes please support Graham at Cheese World "Be There"

A few members are not feeling well, so a quick recovery to you all.

Until Next Month, Safe & Happy Motoring to all.

Regards "Chisel"

The Battery Drive is still on. Batteries can be left at the Dillon's or Chislett's farm, or at King Cole or call Andrew Serra and he will come and pick up. Thanks to everyone helping with this continuing fundraiser. The price is up at the moment so please keep them coming in.

For Sale: 2020 Calendars

It's hard to believe that we are already well past the half way point in the year and before we know it we will have to start thinking about Christmas and the New Year. So here is a wonderful idea for Christmas presents and also to hang on the kitchen wall when next year comes around. The Club is having calendars printed again with an amazing array of member's car photos for every month **and the price is still just \$15**. The calendars will be ready for sale at the August general meeting and the AGM in September. This is a great fund raiser for the Club so please support and bring money along to the meetings to buy your calendars or call Ian Rees on 0418567579 or Ken Perrett on 0428527139.

Building Project Committee Report

Thanks to the Building Project Committee and to the many other club members that contributed in some way, whether it was through donations of time or money, materials and fittings, mates rates, or coming to the many working bees that were held. Approximately 5,500 hours of club member time was contributed. Total costs to date on the project are \$100 070, donations and grants received were \$44 355 and therefore cost in monetary terms was just \$55 715. A great result!

A major contribution was mates rates from club members and other tradespeople, and the direct donations from local businesses for things like plumbing fixtures (Reece), paint (Hammonds, plaster sheets (Warrnambool Gyprock and Plaster). Many of these arrangements were made through Harry Droste who also donated many fixtures, fittings and materials.

The biggest thanks must go to the Building Project Committee, who stayed with the project for over two years.

There is still plenty of jobs required to complete the project, and a list has been forwarded to the Committee to follow up, as the Project Committee has completed its task.

THANK YOU TO ALL INVOLVED.

BENEFITS OF A GOOD VOCABULARY!

I recently called an old Engineering buddy of mine and asked what he was working on these days.

He replied that he was working on "Aqua-thermal treatment of ceramics, aluminum and steel under a constrained environment."

I was impressed until, upon further inquiry, I learned that he was washing dishes with hot water under his wife's supervision.

- We are still looking for any suggestions for guest speakers. At the conclusion of the August general meeting we will be having training for our new defib machine as well as a short talk.
- There is the possibility of utilising a new data program that has been written for car clubs. John Welch is investigating this.
- New member applications from Michael Maine (C)

Meeting Closed 10.40pm

Federation Report – August 19

A six-hour trip saw us in Gol Gol, NSW, for the third meeting of the year including the AGM. The Mildura Vintage Vehicles Club Inc. played host for the day.

Picnics for the year are as follows – **Marong Picnic** is on August 25th, free entry to all Federation Club members, just have it printed in your newsletter and have your copy with you. All other entries for display are charged \$20. **Bendigo to Castlemaine** run on the day before, breakfast at the Bendigo Club Rooms for \$5. Any further information ring Neil Athorn – 0408 033 839.

Picnics for next year start with the **Mortlake Picnic** March 22nd. Warrnambool Club has been officially asked to organize the day with prizes on the day to be supplied by the Federation. Followed the next weekend by the **Wunghnu Picnic** March 28th and 29th. **Scoresby Picnic** also to be held on the 29th of March. **Echuca Picnic** will be held on the 17th of May.

Golden Oldies Tour will be next held in 2021, more details to follow and it will be held around Central Victoria.

In general business, Warrnambool asked the floor and the chair if there was anything in the rumour about owners being able to entre a vehicle onto the CPS and not be a member of a car club. We were informed that it was a rumour and it was known to be out there. It will be brought up with John Lewis of VicRoads, but John has taken two months long service and won't be available until September.

Warrnambool also asked the floor if anything could be done with the incorrect use of under bumper lights, known as fog lights, the law is broken if they are used outside inclement weather. Out of focus headlights and the brightness of new car headlights. All three points are to be raised with VicRoads. We will await the answer.

Robert Shannon Trust – This year only one entry was received across Australia for a grant. Grants are given to young members under 30 who could use a hand either financially or with study or tools to help with their project. The aim is to help young people complete their project. The entry was found to have not completed the entry to a satisfactory level, so no grants were given away this year. If anyone knows of someone that fits the outline and would like to help them, John Kennett is on the board of the Robert Shannon Trust and can be contacted on 03 5595 4432, or swequine@aussiebroadband.com.au

Warrnambool has been given the first delegates meeting for next year on February 8th, followed by Echuca on May 16th, Shepparton on August 8th and finishing off the year at Bendigo on October 17.

Our next meeting will be held by the Hobsons Bay Men's Shed Motoring Group, in Werribee, on the 19th of October.

2018 Hot Rod Hill Climb – Central City Colorado

Last year when my son and I were in the United States in September/October we started out near Seattle and made our way through Oregon, Montana, Wyoming and into Colorado. After the scenic Yellowstone National Park our next stop was Central City which is a small town in the mountains 50 km west of Denver at an elevation of about 2500 meters. Gold was discovered there in 1859 and at its height there was a population of about 20,000 and many impressive buildings were built in the late 1800s. Like every gold rush this one eventually declined about WW1 and by the 1950s the population was only about 200 but fortunately the historic buildings remained. In the early 1990s gambling casinos were legalised and the town has revived and become a tourist magnet with a population of 650. Another tourist event that started up in 2013 has been a hot rod hill climb which is a throwback to the 1950's where hill climbs were sprouting up all over the United States. A local garage, Nick's Hot Rod Garage, brought back to life the event and it is held every year now in mid-September.

We arrived late afternoon the day before the hill climb and camped in the local campground. Just before sunset we went down into the town centre and already many of the hot rods and classic cars were on display in a large parking area so we checked them out and walked the historic downtown area and had dinner.

Classic cars and hot rods on display in town

Next morning we went back downtown to watch the action. There were several hundred hot rods and they sequentially proceeded out of the main parking area to starting point. There was a young woman with a chequered flag and she did a little dance each time and jumped up and flag dropped and the hot rods burned rubber and went up the hill climb with screeching tyres and followed a timed course of about half a mile to the top. Many came back down for another go to see if they could improve their times.

Hot rod display and assembly area with town in background. Hill climb is on the right

Hill climb start with a lady doing the flag start 😊

Coming around for another run at the hill climb

Hot rod doing tyre burn out at start line

On display near the start line was the town's fire brigade with a 1930 Model A fire engine. It had been the first motorised fire tender in the town and brigade members had restored it. Overall the hill climb was a great event and it was a relaxed atmosphere where people could walk around and see the cars and talk to the owners without too many safety marshals and red tape. It seems like Central City has been able to reinvent itself and attract tourists to this charming historic town.
