President's Message

Hi all,

First apologies to Ken Veal for being called John in the minutes. It was a great visit.

Save these dates for your diaries.

First Merrivale state school celebrating 100 years and would like some cars for show on Saturday 3rd August. 10 am to 1pm. Let me know if you can help out.

Saturday 10th August is a working bee at club rooms to assemble the shed shelving and mark out the disabled parking bays in front of the hall and any other jobs we think of meantime.

The weekend of October 18th to 20th the Western District Historical vehicle club (Geelong) are conducting a run to Warrnambool. We have been invited to join them on some of their activities and cater a BBQ lunch on Sunday the 20th. More on this later.

Sunday October 6th is our date to celebrate the birthdays of all members turning 80 or older this year. Invite family to join you for the afternoon. We will need numbers for catering. All members are invited to celebrate with them closer to the date. Also check all dates of events in the newsletter calendar.

Thanks to Ted, Ken and Ben for painting the BBQ area and big thanks to Tim and Jack for spreading the gravel over the parking area around the hall. Hopefully no more slush when it rains. Don't forget cuppa and chat on the first Tuesday of each month, 10:30 to noon at the hall. All welcome including women. Hope to see you there.

To all not feeling well. Hope your health improves soon.

Cheers

Bryan O'Meara
Club President.

AHMF issue number two for 2024

Welcome all readers:

National Motoring Heritage Day has come and gone for 2024. I have had reports from many clubs throughout Australia informing me of the events that were held on the day. It seems not only did the motoring movement strongly support these events, but they were also attended by many members of the public. On the day I attended a display in a small Northern Victorian town. The event was well organised by the hosting Motor Club which provided good facilities and meal options for all those who attended. The event was free for all to enter.

Free events of this nature are only made available by the hard and tireless work of volunteers. Just imagine for a moment, how our movement would function without volunteers. I would like to suggest the cost of organising and running an event would significantly rise as many tasks currently completed by volunteers would have to be completed by paid service providers.

Many clubs would not be able to host events and free events would become a thing of the past. My own club has nearly 400 members. Like many other clubs I know of, the regular volunteer pool consists of less than 10 members.

Like so many clubs the regular volunteers are getting older and less able to assist as much as they have in the past and, like so many clubs, it is difficult to get younger members more involved in the operation and organisation of the club. It appears to me many members are ready to complain to anyone who will listen about event organisation but the very same people are not prepared to muck in and help out.

Committees are also the backbone of our movement. These bodies consist of unpaid members who tirelessly manage all day-to-day activities associated with the running of a successful club. From managing finances to ensuring appropriate governance is adhered to and ensuring the best is achieved for all members they represent. Again, committee members come into their unfair share of complaints often from within and outside the committee. Committees can only be effective if all members speak-up and help set the direction of the committee.

If you are currently a member of a committee, I applaud you and encourage you to be an active member. As a member of a committee, you are jointly responsible for the demeanour and success of the committee and the club overall. In closing, I ask all readers to support your club's activities and committees. If you are on a committee, be an active member. If your club calls for volunteers and you can assist, please do so.

One of the positive comments I constantly hear is how hard it is to select a date to hold an event that doesn't clash with another event. The health of our movement rests with the work of committees and our volunteers. Until the next edition, I encourage all readers to keep safe and enjoy the pleasure of being out in your historic vehicles,

David Berner President Australian Historic Motoring Federation.

Fuel and Lubricant survey

Hi all,

As discussed at our meetings The University of Canberra and the Australian Historic Motoring Federation are conducting a survey on current and future use of fossil fuels and lubricants in operating heritage machines.

Fossil Fuels keep our heritage machines working so whether you are a private owner, a small museum or a government funded institution, we are keen to know what types of fuels and lubricants your machines use and how you might prepare for a potential phasing out of fossil fuels. This could include historic motor vehicles, steam, aviation, maritime, farm equipment and early electric machines, or any other old machines that you keep in working order.

Help us prepare for the future of operating heritage by participating in our survey here: https://uoc.syd1.qualtrics.com/jfe/form/SV_eYdZYPxnUunYd3o

Please distribute this to your member clubs for them to complete.

Best Regards,

David L. Berner

The afternoon tea on September 12th is at The Red Robin Cafe in Camperdown. Leave Warrnambool club rooms at 12.45 to drive to Camperdown.
